

# ~~UNPREPARED~~

## Police Civilian Employee Training Opportunity

# PREPARING FOR THE UNSPEAKABLE

Designed by our law enforcement consultants to assist our clients with the process of developing action plans for workplace violence and active shooter incidents. OSHA/PEOSH requires public entities to prepare for recognized hazards. Unfortunately, workplace violence has become a recognized hazard. Loss of life, multiple serious injuries, business interruption, and mental health impacts are reasonably foreseeable consequences. Planning and preparation are key elements in mitigating these types of risks. This course walks the participant through a strategic planning process on best business practices.

### COURSE LENGTH

1.5 Hours

### TARGET AUDIENCE

Required upon initial assignment and retraining as needed for Administrators, Managers, Supervisors, OEM, and Human Resources.
