

SHIFT BRIEFING

FALL PROTECTION – GENERAL KNOWLEDGE QUIZ

1 – *Per the OSHA General Industry Standards, at what height must a worker be protected from falling?*

- a) *Four (4) feet*
- b) *Five (5) feet*
- c) *Six (6) feet*
- d) *Eight (8) feet*

Answer: A – OSHA's General Industry Standard 1910.28(b)(1)(i) requires workers be protected when on a walking / working surface that is 4 feet or more above a lower surface.

2 – *TRUE or FALSE: Fall protection on a step ladder is not required until the feet of the person using the ladder are more than 4 feet from the surface.*

Answer: FALSE – Portable ladders are exempted from the Fall Protection Standard 1910.28(a)(2)(i).

3 – *TRUE or FALSE: A manila rope life line must be inspected monthly by a Qualified Person.*

Answer: FALSE – Natural fiber ropes are prohibited in a personal fall arrest system. 1910.140(c)(15)

4 – *What is total maximum free fall distance allowable for a personal Fall Arrest System*

- a) *6 feet*
- b) *8 feet*
- c) *10 feet*
- d) *12 feet*

Answer: A – Personal fall arrest systems are rigged in such a manner that the employee cannot free fall more than 6 feet (1.8 m) or contact a lower level. 1910.140(d)(2)(ii)

5 – *A personal Fall Arrest System must limit the falling employee's deceleration distance and bring them to a complete stop within what distance?*

- a) *2.25 feet*
- b) *3.5 feet*
- c) *5.5 feet*
- d) *6.75 feet*

Answer: B – 1910.140(d)(1)(ii) Personal Fall Arrest Systems must bring the employee to a complete stop and limit the maximum deceleration distance the employee travels to 3.5 feet (1.1 m)

6 – *If the employee can fall up to 6 feet, and then be decelerated to a stop in 3 ½ feet, what is minimum height that a worker can fall before coming to a stop above the ground?*

- a) *6 feet*
- b) *9.5 feet*
- c) *14.5 feet*
- d) *18 feet*

Answer: C – 14.5' Minimum - did you account for the approximately 5 feet of the worker below the D-ring? Better answer is D. ANSI recommends a 3-foot safety factor be added.

Bonus Question: What is the weight limit for our fall protection body harnesses and lanyards?
