

LAW ENFORCEMENT WORK ZONE TRAINING

This program serves as an initial course for current New Jersey law enforcement officers who have not previously completed a Work Zone Safety Course. In their line of duty, officers often find themselves assisting in setting up or operating at work zones, DWI checkpoints, emergency scenes, and special events that impact highway traffic. It is crucial for officers to possess a comprehensive understanding of work zone safety compliance as per the MUTCD and NJDOT standards. The program addresses enforcement protocols and legal obligations, as well as the inherent risks these operations pose to police personnel, highway workers, and the motoring public on a daily basis.

COURSE LENGTH

4 Hours - Zoom

TARGET AUDIENCE

New Jersey Law Enforcement Officers who have not previously completed a Work Zone Safety Course
